Subject	Importer compliance statement	Regulation	Regulation (EU) 2025/40 (PPWR)
Basis of Statement	Supplier declarations dated 29 June 2026	Scope	Packaging components declared in supplier-chain spreadsheet

To: EU Competent Authorities / Market Surveillance Authorities

Subject: Packaging Compliance Statement for VIPColor Technologies Products

Venture Electronics Spain, S.L., with registered contact address at Carrer Pagesia 22-24, 1B, 08191 Rubi, Barcelona, Spain, acts as the EU importer for products manufactured by VIPColor Technologies Pte Ltd and placed on the Union market through Venture Electronics Spain, S.L.

This statement is issued in support of the obligations applicable to packaging placed on the Union market under Regulation (EU) 2025/40 on packaging and packaging waste (PPWR), including the sustainability, information, packaging minimization, substances, recyclability, recycled content and waste prevention objectives applicable to packaging, where relevant to the specific packaging type and date of application.

Venture Electronics Spain, S.L. confirms that it has obtained and reviewed supplier-chain declarations for packaging materials used in connection with VIPColor Technologies products. The review covered 49 declared packaging components from 17 suppliers, based on supplier declarations dated 29 June 2026.

Basis of assessment

- The assessment is based on supplier declarations and information provided for packaging minimization, design for recycling, recycled content, substances of concern, reusability, labelling and information requirements, and waste reduction and prevention.
- All declared packaging components were reported by suppliers as compliant with packaging minimization and substances-of-concern requirements.
- Supplier declarations indicate specific exceptions or ongoing implementation actions relating to recycled content, design for recycling and waste reduction/prevention.
- Where a PPWR provision was indicated as not applicable, the applicability position was recorded by the relevant supplier in the supplier-chain declaration.

Compliance position

Based on the supplier declarations available as of the date of issue, Venture Electronics Spain, S.L. has not identified evidence of intentional use of prohibited substances of concern in the declared packaging materials. The importer has also received supporting-documentation confirmations for the substantial majority of declared components. One supplier line was declared without supporting documentation and is retained as an open follow-up item in the technical compliance file.

Venture Electronics Spain, S.L. does not make an unconditional certification that every packaging component is fully compliant with every present and future PPWR obligation. Instead, this statement records the current documented compliance position and the ongoing due-diligence actions being undertaken with VIPColor Technologies Pte Ltd and the relevant packaging suppliers.

Open areas identified from the supplier-chain declarations include: one component declared as non-compliant for design for recycling; five components declared as non-compliant for recycled content; and twenty-seven components where waste reduction and prevention measures were declared as not yet implemented. These matters are being monitored through supplier engagement and corrective-action follow-up.

Importer undertaking

Venture Electronics Spain, S.L. will maintain the supplier declarations and associated records as part of the relevant packaging compliance file and will make reasonable efforts to obtain updated declarations, additional supporting documentation and corrective-action evidence from suppliers where gaps or implementation items have been identified.

This statement is made in good faith based on supplier information available to Venture Electronics Spain, S.L. at the date of issue. It is intended for regulatory and due-diligence purposes and should be read together with the Supplier Packaging Compliance Summary attached as Letter 2.

Letter 2 - Supplier Packaging Compliance Summary and Open Action Register

VENTURE ELECTRONICS SPAIN, S.L.

Carrer Pagesia 22-24, 1B, 08191 Rubi, Barcelona, Spain | Tel: +34 93 588 3018

Document No.	VES-PPWR-2026-001-L2	Date of Issue	3 July 2026
Issued By	Venture Electronics Spain, S.L.	Importer Role	EU Importer of VIPColor Technologies products
Subject	Supplier compliance summary and open action register	Regulation	Regulation (EU) 2025/40 (PPWR)
Basis of Statement	Supplier declarations dated 29 June 2026	Scope	Packaging components declared in supplier-chain spreadsheet

To: EU Competent Authorities / Market Surveillance Authorities

Subject: Supplier Packaging Compliance Summary for VIPColor Technologies Products

Venture Electronics Spain, S.L. has reviewed supplier declarations received from the packaging supply chain for VIPColor Technologies products. The purpose of this summary is to provide a structured overview of the documented supplier compliance position under Regulation (EU) 2025/40 on packaging and packaging waste (PPWR).

Summary of supplier declarations

PPWR Area	Compliant	Not Applicable	Non-compliant / Not Implemented	Authority-facing assessment
Packaging minimization	49	0	0	All declared components reported compliant.
Design for recycling	48	0	1	One supplier-specific improvement item identified.
Recycled content	44	0	5	Implementation gaps identified for selected plastic/protective packaging items.
Substances of concern	49	0	0	All declared components reported compliant.
Reusability	32	17	0	Applicability varies by packaging type.
Labelling and information	19	30	0	Applicability varies by packaging type.
Waste reduction and prevention	22	0	27	Ongoing implementation actions required for selected suppliers/components.

Supplier base reviewed

The supplier-chain declarations reviewed covered the following suppliers: ACE MATERIALS INDUSTRIES SDN BHD; ALL INDUSTRIAL MANUFACTURING PTE; AONKI PACKAGING S/B; ATTRACTIVE VENTURE (JB) SDN.BHD.; BMP AMERICA; BOLD PACK INDUSTRIES SDN BHD; DOUBLE SS PACKAGING PTE LTD; EX-PACK (S) PTE LTD; FAGERDALA SINGAPORE PTE LTD; JEBSEN & JESSEN Packaging Sdn Bhd; LACTUS PAPER INDUSTRIES SDN BHD; LVC ECOPACK SDN BHD; MATSON PACKAGING SYSTEM PTE LTD; OREGON PINE SDN BHD; PERCETAKAN SALJU SDN BHD; PROPACK POLYTHENE ENTERPRISE.

Open action register

Issue identified	Supplier / component affected	Current status	Required follow-up action
Design for recycling non-compliance	Bold Pack Industries Sdn Bhd - protective plastic layer / bubble roll	Open	Request revised design-for-recycling declaration or alternative compliant packaging design.
Recycled content non-compliance	All Industrial Manufacturing Pte; Double SS Packaging Pte Ltd; Propack Polythene Enterprise; Bold Pack Industries Sdn Bhd	Open	Obtain recycled-content implementation plan, material specification or exemption / non-applicability rationale where legally supportable.
Waste reduction and prevention not implemented	Selected suppliers/components as declared in supplier-chain spreadsheet	Open	Request supplier waste-reduction implementation timetable and evidence of preventive measures.
Supporting documentation not provided	Lactus Paper Industries Sdn Bhd line item	Open	Obtain missing supporting documentation or updated supplier declaration.

Conclusion

The supplier-chain data supports a documented due-diligence position for packaging compliance and identifies specific supplier follow-up actions. Venture Electronics Spain, S.L. will retain the supplier declarations and this summary in the technical compliance file and will update the file upon receipt of revised supplier declarations, additional evidence or corrective-action confirmations.

This summary is not a third-party certification. It is an importer due-diligence record prepared for regulatory review and is based on information provided by suppliers to VIPColor Technologies Pte Ltd and Venture Electronics Spain, S.L. as at 29 June 2026.
