

Declaration of Packaging Compliance

Regulation (EU) 2025/40 on Packaging and Packaging Waste (PPWR)

To Whom It May Concern,

Venture Electronics Spain, S.L., acting as the authorised importer and distributor within the European Union for products manufactured by VIPColor Technologies Pte Ltd, has conducted a review of packaging compliance information provided throughout our supply chain in support of Regulation (UE) 2025/40 on Packaging and Packaging Waste (PPWR).

Based on supplier declarations and supporting documentation available at the date of this statement, we confirm that:

- Packaging materials supplied for VIPColor products have been assessed against the applicable requirements of Regulation (EU) 2025/40.
- Supplier declarations have been obtained covering, where applicable:
 - Packaging minimisation;
 - Substances of concern;
 - Design for recycling;
 - Recycled content;
 - Reuse requirements;
 - Packaging labelling and information requirements; and
 - Waste prevention and reduction measures.
- The majority of packaging components have been declared by suppliers as compliant with the applicable PPWR requirements relevant to their packaging type.
- Certain packaging components remain subject to ongoing improvement programs relating to recycled content, design for recycling and waste reduction initiatives. These items have been identified by the respective suppliers and are being actively monitored.
- Where specific PPWR provisions are not applicable to a packaging component, suppliers have documented these requirements accordingly.

Venture Electronics Spain, S.L. works closely with VIPColor Technologies Pte Ltd and its packaging suppliers to ensure continuous improvement towards full compliance with all applicable provisions of Regulation (EU) 2025/40.

This declaration is issued based on supplier declarations and technical information available at the date of issue. It does not constitute an independent third-party certification but represents our due diligence and current compliance assessment under the applicable regulatory framework.
