

Supplier Packaging Compliance Summary

Regulation (EU) 2025/40 (PPWR) on Packaging and Packaging Waste (PPWR)

To Whom It May Concern,

As the European importer of VIPColor Technologies products, Venture Electronics Spain, S.L. has obtained packaging compliance declarations from suppliers involved in the manufacture and supply of packaging materials used for these products.

The supplier declarations have been reviewed against the principal requirements of Regulation (EU) 2025/40 on Packaging and Packaging Waste. The overall assessment is summarized below.

PPWR Requirement	Overall Assessment
Packaging minimization	Compliant
Substances of concern	Compliant
Design for recycling	Generally compliant, with limited supplier-specific improvement actions identified
Recycled content	Partially compliant; implementation is ongoing for certain packaging materials
Reusability	Compliant or Not Applicable depending on packaging type
Packaging labelling	Compliant or Not Applicable depending on packaging type

Waste prevention and reduction Improvement initiatives are being progressively implemented by suppliers

Based on the information currently available:

- Supplier declarations have been collected from the relevant packaging supply chain.
- Any identified gaps have been documented and are being addressed through supplier engagement and continuous improvement activities.
- No evidence has been identified indicating the intentional use of prohibited substances in packaging materials.
- Venture Electronics Spain, S.L. and VIPColor Technologies Pte Ltd will continue to monitor regulatory developments and obtain updated declarations from suppliers as implementation of the PPWR progresses.

This summary reflects the information available from our suppliers as of the date of issue and will be updated whenever new technical information or revised supplier declarations become available.
